

KORANDO

e-MOTION

SSANGYONG

[Special offers](#)[Book a test drive](#)[Find your local dealer](#)[Build your Korando e-Motion](#)

Electrifying good looks

It's all-electric. It's Korando e-Motion. All the practicality of an SUV, with all the sustainability of the electric vehicle you've been waiting for. It's the ultimate marriage of sophisticated Korean DNA with the latest in vehicle technologies.

[Exterior](#)[Technology & connectivity](#)[Interior & space](#)[Drivetrain](#)[Safety](#)[Models & colours](#)[Equipment & data](#)[Dimensions](#)[Accessories](#)[Aftersales](#)[Heritage](#)

[Special offers](#)[Book a test drive](#)[Find your local dealer](#)[Build your Korando e-Motion](#)

Future-forward design

Great design comes from any angle, the rear looks as elegant as it is functional. Clearly a SsangYong with the dragon's wing badge, clearly a Korando with a wide opening tailgate and substantial loadspace to cater for the families needs, clearly electric signed off with an e-Motion logo.

Make a bold entrance

This is an all-electric vehicle with refined, energetic style. Bold, sleek and chic. Combining heritage and hi-tech in one refined advanced package, Korando e-Motion reduces emissions without sacrificing any style.

LED headlights

For those who want to see and be seen. The multi-focus reflector headlights feature distinctive blue accents. Sparkling high beam and low beam LED headlights will turn heads and light your way on the darkest nights.

LED fog lights

Neatly positioned alongside the signature front skid plate and aerodynamic grille, the triple stacked LED displayed fog lamps are integrated within the front bumper to complete the high tech image.

LED rear combination lights

A new silver line motif and distinctive double-V within the cluster announce a new look for the Korando e-Motion rear combination lights.

Specifications shown vary from UK model

[Exterior](#)[Technology & connectivity](#)[Interior & space](#)[Drivetrain](#)[Safety](#)[Models & colours](#)[Equipment & data](#)[Dimensions](#)[Accessories](#)[Aftersales](#)[Heritage](#)

Attention to detail

Korando is at the cutting edge, embracing future-thinking new technologies. Electric blue accents and aerodynamic character lines emphasise the vehicle's advanced eco credentials. The pursuit of maximum energy efficiency is highlighted by the pared-down, closed off radiator grille.

Rear skid plate

A distinctive design touch that gives the rear of the Korando more dynamic, SUV styled elegance.

Chrome details

The tailgate is enhanced by additional brushed chrome details that feature the model name Korando – the original 'Korea can do'.

Aerodynamic wheels

The e-Motion's aerodynamic wheels don't just project a futuristic image, they also increase vehicle efficiency with low rolling resistance tyres.

Door mirrors

The energetic, purposeful side silhouette is enhanced by the sleek door mirrors. The multi-function door mirrors can fold in when you step out and have downward facing puddle lights which let you see what you're stepping into.

Total control

This driving experience is centred around you. Essential data is available at a glance. You are in the driving seat within a mellow, relaxed cockpit as microprocessors work tirelessly and efficiently to relay information to your contemporary, cool-blue digital display.

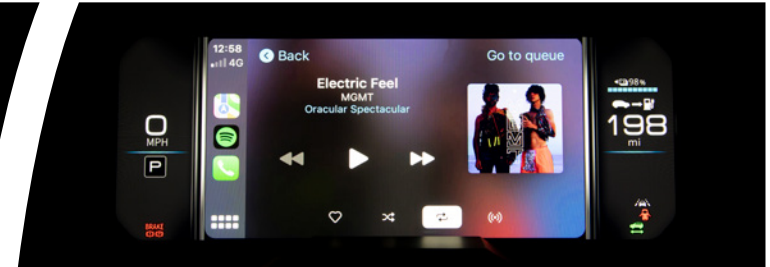

Digital instruments with in-cluster navigation

Full colour map display to give you the overall picture flanked by vehicle information displays on either side.

Analogue style display

Analogue style instruments surround a central screen that provides your selection of vehicle data so you can stay in control.

Digital instruments with smartphone mirroring

Data from your smartphone is mirrored from the central infotainment screen to the digital display flanked by vehicle information displays on either side.

Sounds sensational

e-Motion has all the latest tech. Dual displays link you up with the outside world, while Android Auto or Apple CarPlay keep you connected to your sounds. There's even a rear view camera as standard.

9" HD Navigation

Features a high definition 9" screen, DAB radio, TomTom® Navigation, Apple CarPlay or Android Auto to play your favourite podcasts or tracks whilst keeping you on track.

8" screen smart audio

An 8" touchscreen controls DAB radio, Apple CarPlay or Android Auto connect your smartphone to the car, or use Bluetooth connectivity, or a handy USB.

Android Auto and Apple CarPlay

No need to look down at your phone, it's all on-screen. Access invaluable apps and enjoy your music library whilst on the move.

Hi tech. Full spec.

You would expect a vehicle which is on the leading edge of an all-electric revolution to have electronics to match. Korando e-Motion has advanced driver interfaces which use faster, easier, smarter technology to evolve the way you drive.

Electronic Parking Brake with Auto Hold

Apply the parking brake via a button. The auto hold maintains brake pressure even when pressure is released from the brake pedal – on depressing the accelerator the brake is automatically released.

Dual zone air conditioning

Everyone is individual. You may want to turn the heat up, whilst your passenger stays cool. Dual zone. Joint decision. Perfect harmony.

Rear parking camera

Make it easier to see what's going on behind you with an automatically deployed reversing camera with parking guides.

Wireless phone charger

Charge your phone wirelessly to keep you connected on the move.

Heated steering wheel

When it's cold outside, there's nothing more warming than the comfortable touch of a heated steering wheel.

Power tailgate

The smart power tailgate opens as you approach via an intelligent key fob to take the pain out of loading.

Specifications shown vary from UK model

The inside story

There's a Korean phrase, 'Noon-Chi' which has no direct translation. It means being in touch with the feelings of others and in harmony with your environment. The Korando e-Motion has Noon-Chi in spades. The interior is the widest in its class and wraps itself ergonomically around you. You feel safe, secure, and comforted.

[Exterior](#)[Technology & connectivity](#)[Interior & space](#)[Drivetrain](#)[Safety](#)[Models & colours](#)[Equipment & data](#)[Dimensions](#)[Accessories](#)[Aftersales](#)[Heritage](#)

Stretch your legs

Inside, Korando e-Motion is big. It's roomy and it's comfortable. The award winning front seats are sumptuous and heated. And there's more than enough room for strapping teenagers in the back.

Heated front seats

When there's a chill in the air, a warm, welcoming heated seat creates the perfect environment for you to enjoy the ride.

Ventilated front seats

A long journey on a hot day is made all the more comfortable with the cooling air from ventilated front seats.

Power adjusted seats

The driver's seat is power adjustable allowing the ability to find the perfect driving position effortlessly.

Heated rear seats

It can get very chilly in Korea so it's no surprise that the rear seats in the Ultimate model are also heated – comfort all round.

Reclining rear seats

Sit back, settle down and enjoy the ride. The rear seats recline so passengers can savour the still, quiet joys of all-electric driving.

Bags & bags of space

With 551 litres of loadspace, the Korando e-Motion offers class beating capacity for luggage and seating flexibility. It's not just big. It's huge and packed with features.

Flexible Rear Seating

Golf clubs? No problem. Suitcases? Bring them on. You can adjust the rear loadspace by folding all or part of the rear seats - surf board, no problem!

2nd row:
40% folded

2nd row:
60% folded

2nd row:
100% folded

Adaptable Luggage Board

A handy two part luggage board provides a hidden compartment like the luggage hold of a plane, or can be stored behind the rear seat to create one huge luggage space.

Places for bits & bobs

An iPhone here. A road map there. And a sneaky chocolate bar down the side. e-Motion is cleverly designed to stay clutter free, even on the longest drives. A home for everything and everything has a home.

Large glovebox

The high capacity, multi-functional glove-box swallows up a 10.5" iPad.

Adjustable armrest storage

There's a sliding armrest on top of the large central storage bin which moves forward to provide useful elbow support.

Large capacity door pocket

Huge front door pockets take a couple of water bottles to keep you refreshed.

Storage for glasses

Reach for your sunglasses when the sun starts to shine.

You're in charge

With a range of up to 309 miles when driving in the city, Korando e-Motion has more than ample ability. 15 miles to work and back again each day? One charge will last you a week. Going further afield? London to Leeds? No problem. Manchester to Birmingham? And back again.

Utilise the ever expanding charging network

Rapid charging - 100kW

The Korando e-Motion can be charged for normal use in just over half an hour. To be precise, **33 minutes** will power your vehicle from 20% to an 80% charged battery which is ready to go. Connect to a 50 kW point and you'll have similar levels of clean pure energy in just 54 minutes.

Charging connector lock

The charging connector lock prevents the charging connector from being removed whilst using a public charger.

Charging door and ports

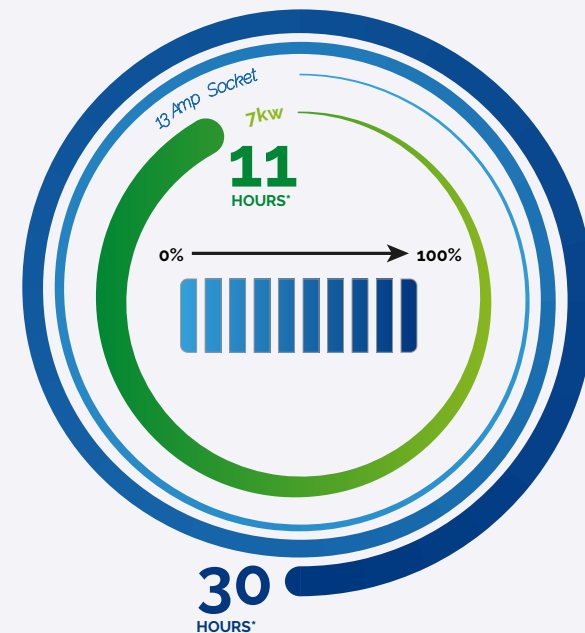

A neat door on the front passenger side wing hides Type 2 and CCS charging ports.

Portable charger

The contemporary equivalent of a petrol can. In the event of an emergency you can charge the battery from an ordinary household outlet (220V) using the portable charger.

The convenience of a full charge overnight at home

Home charging - 7kW

As nighttime falls, e-Motion works overtime to provide you with a fully charged battery using a 7kW home charger. From zero charge to a fully loaded power pack in **11 hours**.

Charging at home

Getting a charger installed at your home is easier than you think

There are a few things to consider when planning to install a home charge point – the good is that SsangYong's affiliate partner, EO, offers a one-stop service that is convenient, cost-effective and packed with benefits. Here's how it works:

- Simply visit your local SsangYong dealer and register for an installation our affiliate partner, EO.
- You will need to provide a few details and photos - location, fuse box and other important aspects - to prepare a smooth approval and installation.
- You may also be asked for documents to prove your eligible for any available government support.
- An EO Approved Installer then comes to your home

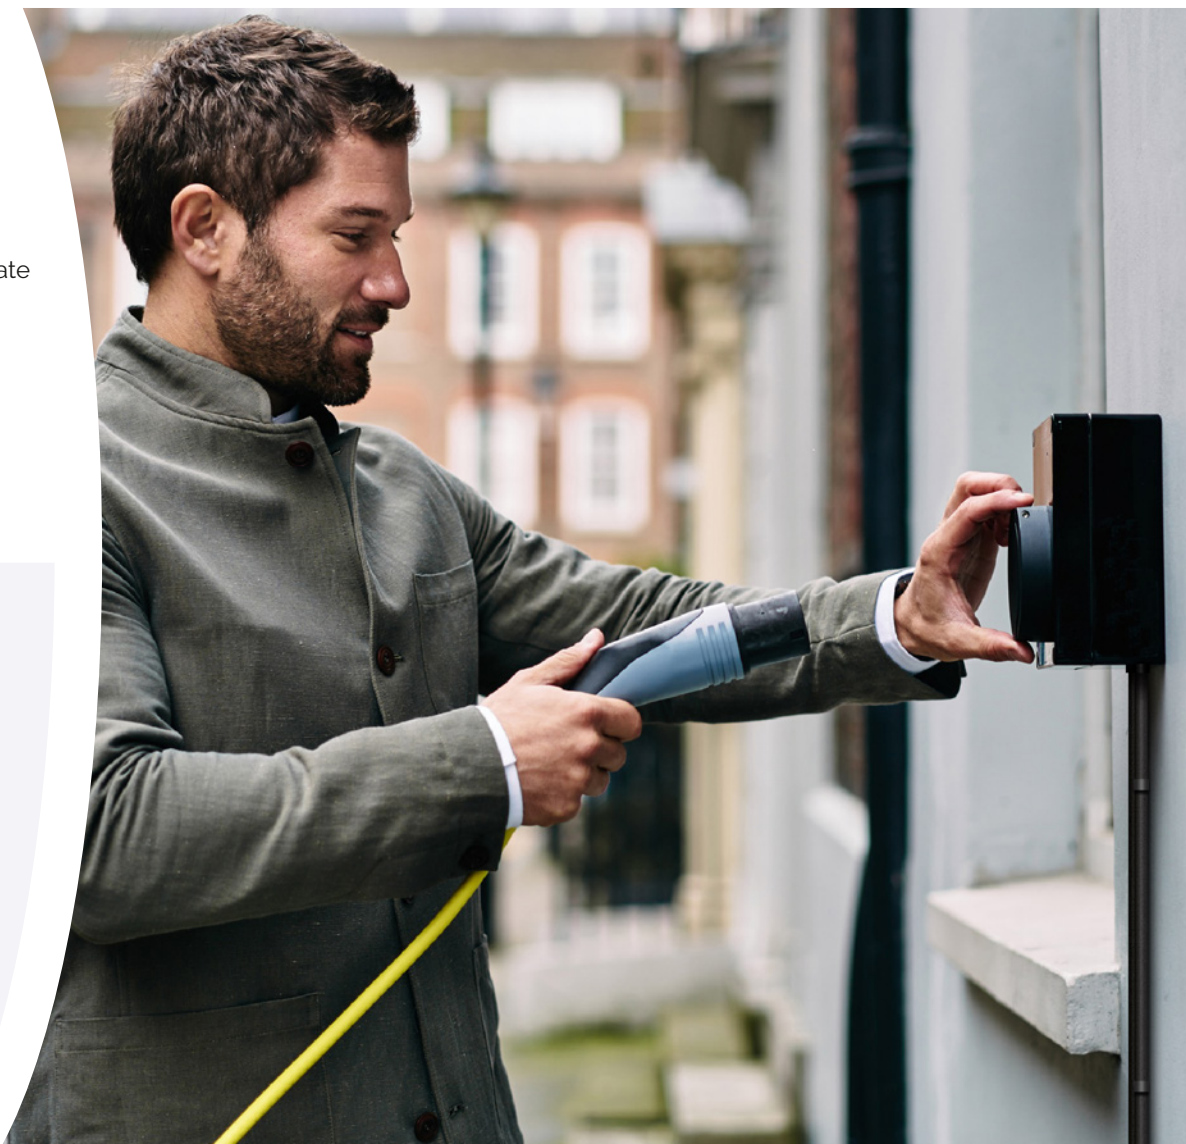

Special SsangYong and EO offer

Get the EO Mini Pro 2 with:

- Charging capacity: up to 7kW
- Untethered (universal) or tethered unit
- Exclusive 7-year warranty on Mini Pro 2 in association with SsangYong
- 3-year warranty and standard installation included on other products
- Auto power balancing to safely manage electrical load (recommended)
- Preferential price for customers referred by a SsangYong Authorised Dealer

Find your nearest dealer at
www.ssangyonggb.co.uk/dealers

Having an electric vehicle charge point fitted at home is a great way to make the most of your Korando e-Motion. It gives you the option to charge your car whenever it is at home and can turn out to be particularly economical.

Power at your fingertips

Korando provides a convenient charging control system via the infotainment screen allowing pre-scheduled charging, target charging and providing a clear charging status display to keep you on track.

Charging status display

When charging begins, the estimated time to fully charge is displayed on the instrument cluster, along with current power level and estimated range.

Scheduled charging

Charging can be scheduled in advance by setting the start and end times which is useful for efficient home charging.

Set required battery level

Programme the amount of charge required to be added to the battery.

High efficiency. High output.

Korando e-Motion is powerful and quiet, smooth and efficient. The benefits of a battery electric vehicle are immediately apparent and appreciated.

Regenerative braking

The regenerative brakes harness the energy used by the motor when decelerating and converts it into latent power to recharge the batteries. Paddle shift levers behind the steering wheel offer 3 stages of control over the level of regenerative braking.

Max Power

152kw

Max Torque

339Nm

Range enhancing heating system

e-Motion Ultimate features an efficient heat system which compresses refrigerant under high pressure to generate heat which is used to heat the interior of the vehicle in place of a conventional heater. This uses less energy from the battery which increases vehicle range.

Towing capacity

Korando e-Motion is well suited for leisure and travel duties, boasting the towing capacity of up to 1.5 tonnes.

Select by wire

Select drive using electronic control which gives direct response in an intuitive and safe manner.

Specifications shown vary from UK model

Your choice of driving style

The choice of drive mode has a significant influence on how Korando e-Motion performs. Acceleration, top speed, regenerative braking and ultimately battery range are all influenced by the choice of drive mode – choose the one that best suits your drive of the day.

Comfort Mode

A balance between driving performance and battery usage. You can relax in the calm, serene interior with the peace of mind that comes from maximising range.

Eco Mode

Super-efficient driving. A quiet, reassuring environment inside and green graphics show it's good for the environment outside too.

Eco+ Mode

All the benefits of the standard Eco setting with speed limited to around 55mph. The ultimate Eco setting gives the longest range for total peace of mind.

Sport Mode

Accelerate to an all-electric future. It's exhilarating and electrifying, but the red graphics remind you to use sparingly to maximise range.

Safety aids

Safety is our prime concern. For you, for your loved ones, and for others on the road. Our continuously growing toolkit of advanced driving safety measures includes Adaptive Cruise Control, Autonomous Emergency Braking, Lane Keeping Assist and Lane Departure Warning Systems, along with driver aids such as High Beam Assist and Driver Attention Alert.

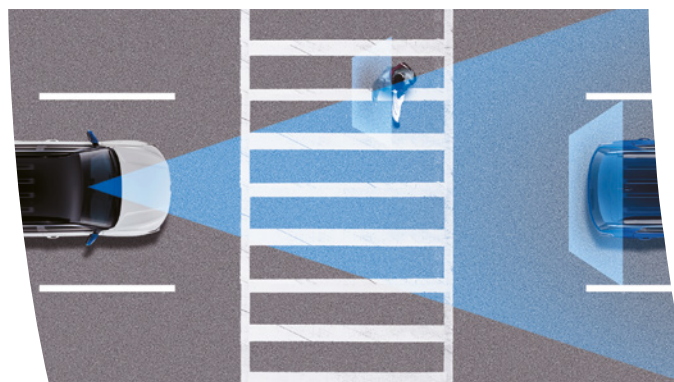

Intelligent Adaptive Cruise Control

IACC allows you to set a chosen speed and will adjust progress to maintain a safe speed and distance from a vehicle ahead. The system uses the vehicle's camera and radar to identify traffic lanes painted onto highways and city streets and will maintain safe progress within a lane, even around corners.

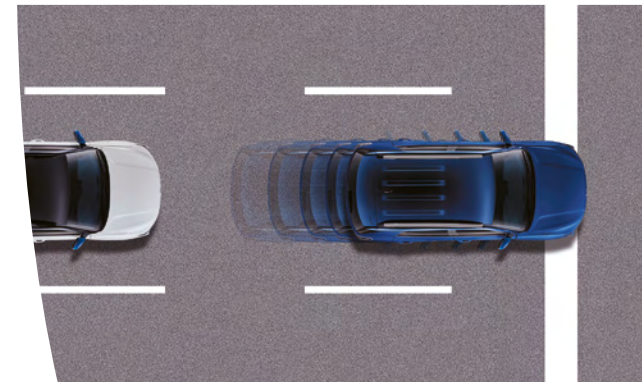

Safety Distance Warning

Alerts the driver when another vehicle or pedestrian appears in the path of the vehicle.

Autonomous Emergency Braking

When a frontal collision is anticipated, this function automatically applies the brakes to prevent a collision.

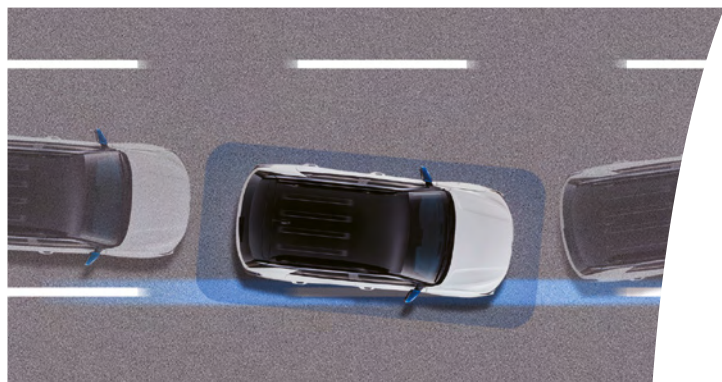

Front Vehicle Start Warning

Alerts the driver when the preceding vehicle begins to depart

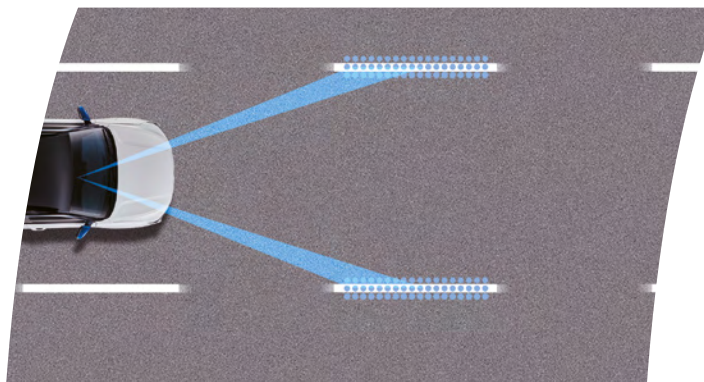

Specifications shown vary from UK model

Safety aids

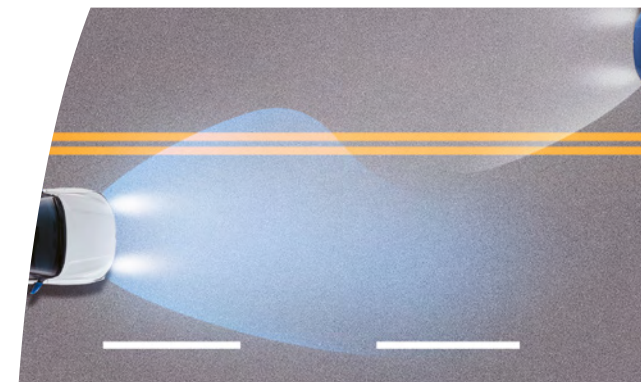

Lane Departure Warning

Notifies the driver when the forward camera module detects an unintended lane departure by the vehicle.

Lane Keeping Assist

Front camera helps prevent unintended lane departure by making a corrective steering adjustment.

Smart High Beam

Switches between high and low beams by analyzing ambient light levels and monitoring the headlights of oncoming vehicles and the rear lamps of vehicles ahead.

Speed Limit Warning

Displays traffic information, including posted speed limits to maximise driving safety.

Specifications shown vary from UK model

Hill Start Assist

Rolling backwards during a hill start is a thing of the past - hill start assist acts as an automatic handbrake and is a great benefit when driving in tricky conditions.

Hill Descent Control

This low speed control activates when the vehicle is handling a steep downhill drive, automatically controlling the rate of descent.

Protecting you. And your loved ones.

This is the strongest Korando ever. Safety is built in – from the body up, with a best in class body structure composed of 77% high tensile strength steel. We've also fitted 6 air bags in case you run into trouble - or trouble runs into you.

77% High tensile strength steel ratio

6 airbags

The Korando e-Motion builds upon its safety focus, boasting 6 airbags for passenger safety. Front seat passengers have front and side airbags with additional side curtain airbags at both front and rear.

1. Driver seat airbag
2. Passenger seat airbag
3. Front-seat side airbag (left)
4. Front-seat side airbag (right)

Customer service

We care passionately about delivering outstanding customer service. Attention to detail is important, so any question you ask, we'll do our very best to answer it.

SsangYong assistance

All SsangYong new vehicles come with 12 months Roadside Assistance, providing you with the best level of customer care both in the UK and on Mainland Europe.

7-year warranty

It's reassuring to know that the Korando e-Motion comes with a 7-year / 90,000 mile warranty. It's a Korean thing. When we promise something, we stick to it. If something goes wrong and it's definitely our fault, we fix it. Our customers like it, and they tell other people about it. So everybody's happy.

3-Year Service Plans

We've got your Korando e-Motion covered for £10.99* per month

A SsangYong service plan will help maintain the 7-year warranty, prolong vehicle life, sustain vehicle performance and aid trouble-free motoring - giving peace of mind at a manageable monthly cost.

A SsangYong service plan covers new vehicles from registration and covers the following:

- ✓ The vehicle's first 3 scheduled services
- ✓ The vehicle's first M.O.T
- ✓ 2 Years extended RAC roadside recovery

*Service plans run for 34 months on Korando e-Motion. EV powertrain service intervals: 12 months or 10,000 miles

More than 65 years of 'Korean Can Do'

Imagine how good you'd be at something if you'd done it every day for 65 years or more. That's how long SsangYong has been making motor vehicles in various guises. We've been crafting the Korando since 1983. Durability and outstanding performance have always been at the very heart of what we do. That's why we're good at it.

Co-founded Shinjin Jeep

Co-founded Shinjin Jeep and developed both hard and soft top Jeep-type vehicles.

Korando 2

The distinctive Korando 4x4 was launched - and features a combination of family transport, towing and off-road ability unique in its day - the first Korean SUV

Korando 4

The product plan comes full circle with a fully modern version of the towing favourite, the Korando SUV.

1954

Ha Dong-Hwan Motor workshop

SsangYong was initially established as Ha Dong-Hwan Motor workshop, specialising in trucks, buses and special purpose vehicles.

1974

1984

Korean Can Do

In 1984 SsangYong took over Geohwa Co and created the name Korando, a contraction of the motto "Korean Can Do".

1996

2011

Korando 3

Korando gains a touch of Italian style. The Giugiaro-designed Korando 3 is SsangYong's first monocoque and uses a new 2.0L home developed diesel engine and 2 tonne towing limit to become a caravaners favourite.

2019

2023

Korando e-Motion

Korando moves into the future with SsangYong's first all electric drivetrain.

July 2023
